LEONIE ZORZI
FULL-STACK JAVASCRIPT DEVELOPER

Full-stack web developer with 3+ years of experience in branded content and media production. Turned to web development as I enjoy the analytical and creative challenge of solving real-world problems with code. As a producer and production manager, I have worked for brands, agencies, and charities, managing productions and teams from initial brief to final delivery.

TECH CAREER

FULL-STACK JAVASCRIPT STUDENT | LONDON, UK   Jul 2019 - Oct 2019
Founders and Coders

Completed an intensive 18-week coding boot camp that covers full-stack JavaScript technology and real project experience with an emphasis on pair programming.

Course included:

- Building full-stack projects for external clients, applying user research and testing
- Participating in weekly hackathons to consolidate learning
- Applying test-driven development and agile methodologies
- Hosting tech meetups and mentoring future students

Key projects:

Meet me in the Middle | *Mobile app to help Londoners find convenient meeting spots*
  - Full-stack Javascript/ES6, Express.js, Node.js, Handlebars
  - As DevOps lead, I was in charge of deployment, file structure & linting

Autsera | *Interactive, educational game for autistic children*
  - Full-stack Javascript/ES6, ReactJs, Sass, Jest, Netlify, PWA
  - As UX/UI lead, I led on user testing and created style guide & digital assets

MEDIA CAREER

PRODUCER & MOTION DESIGNER | LONDON, UK   May 2018 - Jun 2019
Self-employed

Produced digital content for clients in real estate, education and media sector. As a production assistant, I worked on feature films and advertising campaigns. Developed and produced informational 2D motion graphics videos for corporate clients. Mentored and taught in higher education. View work at **lapazfilms.com**

PRODUCTION MANAGER | LONDON, UK   Sep 2016 - Apr 2018
MetFilm Creative

Managed branded content and corporate video productions of MetFilm's in-house creative production agency, reporting to senior account manager. Versatile and client-facing role that involved managing processes of multiple projects simultaneously, handling budgets independently and working with brands such as Aspall, Esquire and Adweek.

Responsibilities included:

- Managing video productions from initial brief to final delivery
- Devising creative concepts to meet clients' communication goals
- Leading cross-functional teams of up to 15 people
- Evaluating project requirements and generating financially feasible solutions
- Communicating concepts and project updates between stakeholders and departments
- Writing creative proposals and pitching to clients
